This app is an animated series that follows a group of owl students as they travel on adventures and learn about God. The first episode is free. You can also purchase the series in DVD form.

Discipleship Ideas for Home

- Go on an "I Spy" nature walk to explore the sense of sight. Say "I spy something that God made" and then name that thing. Then let your child try!
- Point out big and little things around you and your child. Talk about how God made some things big and some things little but he loves all of his creation. Compare your hand to your child's hand. Tell them someday they will be big like you. Have them guess how big God's hand is.
- Teach your child this finger play:
Sometimes I feel angry. (Shake fists in front of you.)
Sometimes I feel mad. (Shake fists in front of you.)
But Jesus' love is in my heart (Parent takes fist and extends thumb, pointer, and pinky fingers, creating the sign for "I love you," and then places that sign over child's heart.)
So I can make a brand new start!
- When our children need help we are usually the first ones they turn to. That is how we should be with our heavenly father! The moment we need help, He should be the first one we turn to. Model that with your child. When you feel overwhelmed with your to-do list, are fighting illness, can't find your car keys, or just need patience with your kids, pray out loud that God with help you with those things. Help your child pray for help from God when they need it too!
